8 November 1985

DDCI

SUBJECT: Meeting of Vice President's Task Force
on Combatting Terrorism

This briefing book was prepared before we received the revised draft recommendations from Admiral Holloway for the 12 November 1985 meeting at the White House. Admiral Holloway's staff, moreover, is preparing a new draft recommendation over the weekend on Issue 3 which calls for the establishment of a National Coordinator for Counterterrorism within the NSC structure. My staff and I will review the revised recommendations, including Issue 3, over the weekend and will advise you of any significant changes during the pre-brief on Tuesday morning.
